

# Mary Muthoni.

## Wordpress & React Developer with 2 years of experience

I am a Web Developer with practical experience in WordPress development and frontend application development using React. Currently working at HoprLabs, I build and maintain responsive, SEO-optimized websites that support business growth.

Skilled in WordPress development, including custom theme modifications, plugin integration, and performance optimization. Proficient in React, JavaScript, HTML, and CSS for developing dynamic, component-based user interfaces.

Experienced in on-page SEO, website speed optimization, hosting setup, domain configuration, and web security best practices. I am continuously expanding my knowledge in modern web technologies and frameworks to improve performance, scalability, and user experience.

## Tech Stack

- Wordpress ( Themes, Plugins, Block Themes, Gutenberg )
- React
- JavaScript

## Development & Workflow Tools

- Front-End Technologies: JavaScript, HTML/(S)CSS, React JS, WordPress.
- Back-End Technologies: C, Python.
- Methodologies: Agile, Scrum.
- Version Control: Git.
- Database: MySQL.
- Data Structures and Algorithms.
- Task tracking (Jira, Asana, Trello, Notion).

## Work Experience:

### Hoprlabs

Spirealm Health System Solutions – [spirealm.co.ke](https://spirealm.co.ke)

Healthcare consultancy website

- Designed and customized a responsive WordPress site highlighting healthcare innovation and service delivery.
- Improved layout, typography, and performance for clarity and accessibility.

Ezra Enterprise – [ezraenterprise.com](https://ezraenterprise.com)

Corporate portfolio and service platform

- Contributed to the development of a modern single-page application with interactive elements.
- Focused on user experience, speed optimization, and responsive design across devices.

Nala Trails & Safaris – [nalatrailssafaris.com](https://nalatrailssafaris.com)

Tour and travel agency website

- Built a visually appealing travel booking platform with destination filters and itineraries.
- Enhanced site navigation, SEO, and booking form functionality for better user engagement.

## ALX Projects:

- Developed a Unix shell in C, demonstrating proficiency in low-level programming. I implemented features such as process creation, I/O redirection, and signal handling.
  - GitHub link: [https://github.com/mary-garachu/simple\\_shell.git](https://github.com/mary-garachu/simple_shell.git)
- Contributed to the development of an Airbnb clone project in Python, focusing on a robust command interpreter.
  - Key achievements include:
    - Implemented a powerful parent class (BaseModel) for object initialization, serialization, and deserialization.
    - Established seamless data flow for serialization/deserialization, facilitating smooth data interactions.
    - Developed classes for essential Airbnb objects (User, State, City, Place, etc.), enabling efficient management.
  - GitHub link: [https://github.com/mary-garachu/AirBnB\\_clone.git](https://github.com/mary-garachu/AirBnB_clone.git)

## M-TIBA:

### Software Engineer Intern

- Provided technical support to the customer care team.
- Assisted in enhancing platform portals (payer and provider) using TypeScript, Angular, and MySQL.
- Tools used: TypeScript, Angular, MySQL

## Other Projects

### Andela Clone):

- Successfully cloned Andela's hire talents website using HTML and SCSS.
- GitHub link: <https://github.com/mary-garachu/andela-clone.git>

### Carepay Clone):

- Created a clone of a tech company offering insurance services in Kenya and Nigeria using HTML and CSS.
- GitHub link: <https://github.com/mary-garachu/carepay.git>

### Achievements:

- Recognized for outstanding collaboration and support during the Software Engineer Internship at M-TIBA.

### Education:

#### ALX Africa (July 2023 - July 2024):

Software Engineering

- I graduated with a specialization in front-end development, focusing on C, Python, JavaScript, and React during the program.

#### Kenyatta University (April 2014 - October 2019):

Earned a Bachelor's degree in Exercise Sport Science.
